RE: SWMU Assessment Report for Tetrachloroethene Release Near Building 191, US Naval Station Mayport, Florida

Dear David:

I have reviewed the above document dated April 1996 (received April 19, 1996). The findings are consistent with information from previous studies in that area and our recent discussions at our partnering meeting indicates that this area should be designated an Area of Concern (AOC) or a Solid Waste Management Unit (SWMU), depending on EPA's HSWA permit requirements.

Thank you for the opportunity to review this document. If you have questions or require further clarification, please contact me at (904) 921-4230.

Sincerely,

James H. Cason, P.G.
Remedial Project Manager
